■ COUNCIL ACTIONS FOR COMPANIES

MEDEF International initiated its first contacts with the Turkmen authorities in 1995, before expanding its activities by creating the France-Turkmenistan Business Council in 2008, shortly after the accession to power of President Gurbanguly BERDIMUHAMEDOV and the organization by MEDEF International of the first French private sector business delegation in the country.

For two decades the Council has been following political, social and economic developments in Turkmenistan, and the business opportunities arising in the country, particularly in the context of the priorities set by the authorities or as a result of the gradual structuring of various sectors of the economy.

Benefiting to a growing number of companies, the Council meetings and business missions organized in Ashgabad:

1. provide deciphering and keys to understanding and in decision making

to get a better grasp of the Turkmen market and the operating conditions in the country;

2. offer a recognized and privileged framework to gain direct access with the higher authorities of the country and major economic and investment decision-makers;

3. increase the sharing of experience between French companies of all sizes, operating in or with the country, particularly in the sectors of construction, building and public works, infrastructure, industrial equipment, security, energy and project financing.

Through its representativeness and its ability to mobilize, MEDEF International also enables the Turkmen authorities to become acquainted with the offer and skills of a very large number of French companies and industries.

→ Reports of business meetings and delegations are available to MEDEF International's members on request.
