

**Press release**  
Paris, March 22<sup>th</sup>, 2022

## **Signature of a MoU between the Hydrogen Task force and H2-Chile**

In line with the recent meetings of the French Hydrogen Task force with Chilean energy public makers co-organized with ProChile, The Hydrogen Task force of MEDEF International and France Hydrogène signed a MoU with H2Chile this March 14<sup>th</sup>, 2022. This collaboration reflects the comparative advantages of both countries to stimulate global hydrogen ecosystems and their dynamism in deploying innovative energy solutions.

This agreement will allow a strengthening in relationships between France and Chile in building cross-continental value chains dedicated to renewable and low carbon hydrogen.

This new partnership will further promote cooperation between the Chilean and French private sector willing to actively deploy scalable hydrogen solutions and contribute to global decarbonation objectives. In that scope, the Hydrogen Task force and H2Chile will soon announce upcoming common actions serving both French and Chilean companies.
